

Description:

When Neil Armstrong first set foot on the moon, the human race reached a pinnacle in its pursuit of progress that was completely unprecedented just years before. And here we are, four decades and many strides later, attempting something we could have never imagined - Settling in space!

Espacio requires you to widen your horizons and think about the various aspects of space habitation. Present your ideas, and make them as original, innovative, accurate and well-researched as you can.

Rules and Regulations:

- Only two members are allowed per team. A maximum of 2 teams are allowed per school/college.
- No on spot registrations are allowed.
- The event consists of 3 rounds, the first being a challenge to prepare and present on a topic which will be revealed later on.
- This topic will be emailed to all participants on 8 September. All participants must do adequate research and make a presentation on the topic.

But it does not end here! Be ready for a series of challenges which will test your knowledge.
