TECHTONIC

Description:

An enthralling mix of IT and electronics will get your circuit running! This event combines programming, gadget making, and a hint of automation. Participants are expected to have knowledge in circuit analysis and computer programming.

Rules and Regulations:

- Contestants are required to bring laptops (Windows OS).
- Use of library resources or online encyclopaedia is not allowed during the event.
- Use of electronic devices for any research is prohibited. Violation of this rule will result in disqualification.
- Maximum number of 2 students per team and 2 teams per school/college is allowed.
